How to add or update personnel pages

Go to the page you wish to edit and click on the 'Edit with Elementor' link.

General Practitioners

Active Health Portland have a variety of both Full time and Part time Ger

We need to create a space for a new GP, so the easy way is to duplicate/clone one of the present GPs and then edit the duplicate with the new information. To duplicate this particular GP, place your curser over the 6 dots in the blue tab, then right mouse click.

When the 'Duplicate' link is displayed, click on it.

auscity.com

Now you can see your duplicate entry. You can now edit the images and text with your new content.

How to move the entries around the page

To move this entry, click on the blue tab again but this time, using your left mouse button to click on hold on the 6 dots.
